**JUN-AIR®**

# quiet air

JUN-AIR's model 4 is ideal when an efficient quiet compressor is required.

The fully automatic JUN-AIR compressor operates silently and without any vibration, therefore, it may be placed directly in the area where air is required. Furthermore, all units with tank sizes up to 25 litres are supplied with handle for easy transportation.

The reliable JUN-AIR compressor is a sturdy and compact design. It comes as a complete compressed-air package, with motor, piston compressor and air receiver. All components are manufactured to a high specification.

The compressor is equipped with:

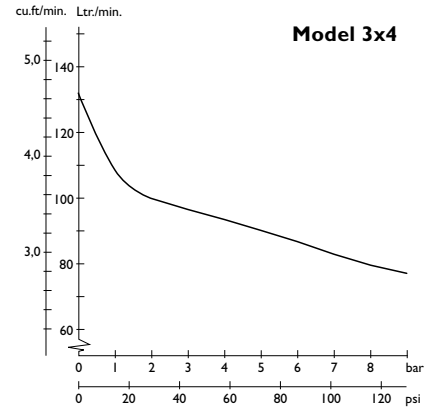

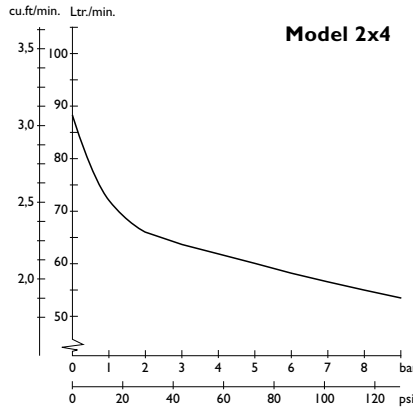

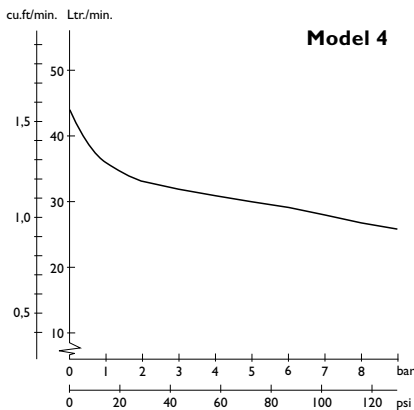

- thermal and electric fuse
- adjustable pressure switch with unloading device
- safety valve
- pressure gauge
- drain
- pressure regulator with 5µm filter

The JUN-AIR compressor requires no installation costs and minimal maintenance.

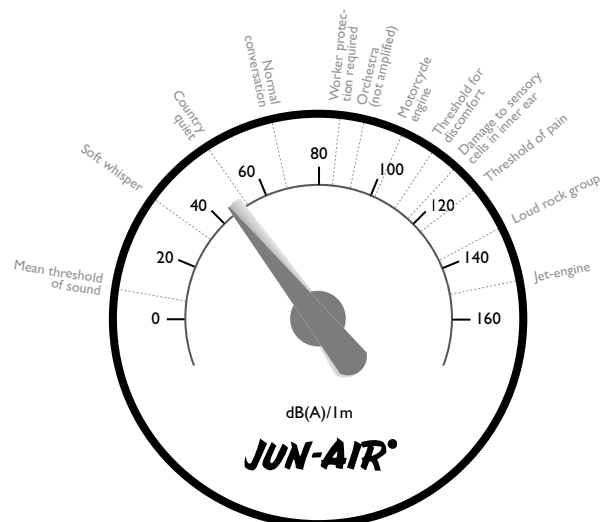

The model 4 range is supplied with a one year warranty.

Model		4 motor	4-4	4-15	4-25	2x4-25	2x4-40	3x4-40
