

In the following parts list, assemblies are printed in capital letters. Parts that are included with an assembly are listed and indented directly beneath it. When an assembly is ordered, the assembly and all parts indented beneath it are included in the shipment.

When an assembly lists a letter code in the **USED ON** column, parts that list the same letter code are used in that assembly. Parts coded **A** are used in the Assembly coded **A**, parts coded **B** are used in the Assembly coded **B**, etc

* Automatic drain bowls are not suited for vacuum service.

** Current bowls use a lip on the bowl ID to retain bowl o-ring. Early bowls had a lip on the bowl OD and used a larger o-ring. Order o-ring 2315-24 for early bowls.
